Does this information reflect a change in the currently approved project funding plan?

Yes

If yes, explain the reason(s) for change in the box below:

Project No. 49 was originally approved in July 2001. In September 2004, this project was split into two phases 49.1 and 49.2. This project (49.1) was originally approved for a total cost of \$3.1 million. During the design phase of this project, it was determined that a greater number of approved design features (changeable message signs) needed to be added. Also, City mandated left-turn phasing was added to the project. These factors, coupled with recent statewide increases in labor and material costs, have appreciably increased to the total project cost. All additional costs will be funded with City of Los Angeles funds.
